New Municipal District Office Is Big Improvement; Now in Use

Although the exterior of the new municipal office is still uncompleted, work on the interior has progressed to such an extent that D. D. McQueen, secretary-treasurer of the Municipal District of Vulcan No. 29 and his assistant, Miss Marjorie Melver, have this week moved into their new office.

The well-designed new building presents an appearance in keeping with the status of the M. D. of Vulcan and its facilities are a great improvement over the old tin-covered building which served as an office for many years.

The vestibule opens into a main office designed for the efficient conduct of the municipality's business and a separate, smaller office for the secretary. Another large room off the main office is furnished as a council room for the holding of meetings. A small room off the main office will hold various records and space has also been provided for an additional office for the use of auditors, district agriculturist, inspectors, etc. Two wash rooms are provided.

The whole office is well lighted by windows, with fluorescent fixtures providing artificial light. The interior color scheme is white, with the lower part of the walls in light green plaster. Natural color woodwork is used throughout. The floor of the general office is of rubber tile in alternate gray and white squares and the floors in the rest of the building are finished with green and white tile.

The building is 32 x 46 feet in size, with a full basement. Hot water heating is installed. The exterior will be finished with tapestry brick and the attractive new building will add greatly to the appearance of Vulcan's main street when completed.

Candlelight Circle Pre-Christmas Sale

The Candlelight Circle of the Church of Christ met Thursday evening November 17th, at the home of Mrs. Johnnie Haydarhach. Plans were made to purchase additional equipment for the church kitchen. It was decided to hold the Christmas meeting at the home of Mrs. Cal Hollister, with each member contributing a Christmas poem, song, or story to form an informal Christmas program.

At the conclusion of the business session, Mrs. Cal Hollister, assisted by Miss Marion MacKay, auctioned a varied and beautiful assortment of articles, made by the members, for this, their pre-Christmas sale. The hostess and her husband then presented a number of lovely slides taken on their trip this summer.

Though Alberta's death rate from T.B. is third lowest in Canada, it still killed 230 Albertans last year. Buy Christmas Seals and help save lives.

School News

Danny Lynch, grade 4, has left to make his home at Keoma, Alberta.

Mr. Cashman of the Provincial Fire Commissioner's Office and Fire Chief James Shortt visited the schools on Friday. The brick school was cleared within 45 seconds of the fire warning bell.

Dr. Ball of the Foothills Health Unit visited the school on Wednesday November 23. He and his assistant continued with the regular immunization program.

Elaine Melnick, grade 2, and Jack Melnick, grade 6 began school here on Monday. Elaine and Jack have been attending school at Brant.

Lorne McCarty, grade 4, is now attending school at Stettler.

Friends of Gordon Nault, recent Vulcan High School graduate, will be interested to know that he had his own by-line on a fine feature article in the current "Gateway," the University of Alberta's newspaper. Gordon who is now employed in the sports department of the Edmonton Bulletin, contributed his article to "Campus Capers" the Sports page of the "Gateway" which was a commentary on the University Sports activities, one of which is a girls' fencing class.

See Scout Films At High River

24 Vulcan Wolf Cubs and 14 Scouts journeyed to High River recently where they attended a showing of films of the National Scout Jamboree held at Ottawa last summer and the International Girl Guide camp at New York.

Also shown were pictures of the Scout Rally at High River last summer, with many familiar faces appearing on the screen.

The trip was made possible by the local Boy Scout Association, which hired two busses to transport the boys.

Good Deeds W.I. Names Officers

The November meeting of Good Deeds W.I. was held at the home of Mrs. Merle Smith with 17 members and four visitors present. Mrs. H. McMasters presided. Roll call answered with wild game recipes.

Election of officers took place at the end of the business session, with Mrs. J. Hutton acting as chairman. The present slate of officers were nominated to continue for another year, as follows: Mrs. H. McMasters president; Mrs. R. Irwin, 1st vice-president; Mrs. William Wylie, 2nd vice-president; Mrs. Dale Campbell, secretary-treasurer; Mrs. E. Andrews and Mrs. A. Fisher, directors; Mrs. R. Irwin and Mrs. E. Andrews, courtesy committee. The following convenors of standing committees were named: Social Welfare, Mrs. C. Dennison; Citizenship, Mrs. Percy Clark; Agriculture and Canadian Industry, Mrs. William Wylie; Home Economics, Mrs. Merle Smith; Handicrafts, Mrs. H. Smith. A handkerchief shower was held for the president, Mrs. H. McMasters, who very recently moved to Nanton to live.

A very enjoyable afternoon was brought to a close by the serving of a lovely lunch by the hostess and her assistants, Mrs. C. Matlock and Mrs. Percy Clark. The December meeting will be held at the home of Mrs. Dale Campbell instead of at the home of Mrs. George Pearce, owing to the illness of Mr. Pearce.

Fortier-Boone Wedding, Portland

The marriage of Miss Isabel Ann Boone, daughter of Mr. and Mrs. John S. Boone, to Norman E. Fortier, son of Mr. and Mrs. E. J. Fortier, all of Portland, Ore.; was solemnized at a double-ring ceremony the morning of Nov. 5, 1949, by Rev. Fr. Edmund J. Murane in St. Rose Catholic Church, Portland. Pink and white chrysanthemums were used in decoration.

Mr. Boone gave his daughter in marriage. She wore an afternoon frock of pale pink satin with matching felt hat trimmed in seed pearls. Her flowers were Elf rosebuds and stephanotis. Her honor attendant, Miss Dorette Kiehlhorn, wore a spruce blue crepe dress with beige accessories and carried a nosegay of rosebuds.

Chester E. Lyons was best man and James Ristig and Walter Patton Jr. were ushers.

After the ceremony a wedding breakfast was served to the wedding party and relatives. In the afternoon a reception was held at the Cameo Room of the Multnomah Hotel. Mrs. E. J. Fortier and Mrs. E. Ashmore poured and Mesdames E. E. Grinstead, E. J. Robb and A. E. Sutton assisted. Guests were present from California, Idaho, Alberta and B.C.

Mr. and Mrs. Fortier flew to San Francisco on their wedding trip. They will make their home in Portland.

Fewer people die of tuberculosis in Canada each year, but even these deaths could be eliminated if a strong enough preventive program could be launched. One way of furthering this program is to buy Tuberculosis Christmas Seals.

Nearly 60,000 persons in this country are suffering from tuberculosis, yet this a disease which given adequate treatment facilities, could be conquered within a generation. Buy Christmas Seals and make your contribution to the preventive programs of the Tuberculosis Associations.

Building Defenses At School

A balanced diet of nutritious food builds strong, healthy bodies which are well fortified to fight the ever-present menace of tuberculosis. This youngster chooses her school lunch wisely, knowing that good food is a weapon against illness and disease. Voluntary tuberculosis associations, which are supported by the annual sale of Christmas Seals, sponsor health education programs in our schools.

Seal Receipts Now at \$350

The Christmas Seal receipts are mounting steadily, and at the end of the second week of the campaign, total of \$350 for Vulcan and district, it is reported by Dr. A. D. Tompkins, chairman of the Vulcan Lions Club Christmas Seal Committee. The objective for Vulcan and district is \$1,500.

Provincial total is \$35,050 toward an objective of \$155,000, according to C. Robert Dickey, general secretary of the Alberta Tuberculosis Association. This represents an increase of \$1,250 over the same period in the 1948 campaign. Mr. Dickey said that the Association and the district committees are hopeful that the increased objective will be reached, as it is most important that the Association be able to expand its case-finding programs through the Christmas Seal mobile X-ray units and through further grants to hospitals for tuberculin testing and X-raying of all patients admitted. Receipts for Christmas Seal contributions are being delayed a few weeks because of the heavy volume of mail reaching committees, but will be sent as soon as possible for income tax purposes. The Seal Sale is sponsored in Vulcan and District by the Vulcan Lions Club, Vulcan.

Two Nominations For Trustee At Champion Sub-div. Meeting

The annual-meeting of the electors of Subdivision Five was held in the Community Hall, Champion, on Nov. 25, at 2:00 p.m. Twenty-eight were present and four officials of the Board. Mr. A. J. Maisey was elected chairman.

The Secretary-Treasurer, A. P. Grant, declared nominations open for the position of Trustee for Subdivision Five for the term 1950-52 at 2:00 p.m.

Mr. A. J. Maisey's nomination was received at 2:00 p.m.

Superintendent Korek reported on enrollment and staff, and stated it was likely that another room would have to be provided for the public school in Champion next year. Mr. Korek gave a paper on "Security Through Achievement." This was very much appreciated by those present.

The Secretary-Treasurer's Report for the first ten months of 1949 was read and adopted as read on a motion by Mr. Versluis and Mrs. Smith.

Mr. A. J. Maisey reported on transportation of pupils, costs of operation etc. There was a question about some high school pupil who had supposedly been refused transportation. Trustee Maisey explained the facts of the case and showed that the boy had not been refused transportation. Moved by Mrs. Versluis and Mrs. Smith that "This meeting recommend that the Department amend the Act to make Transportation to the High School, and High School Education a definite responsibility and obligation of all School Boards." Carried.

There was some discussion re the lighting in some of the Champion

Comprehensive Reports Given at School Meeting

Blueprints of New School Addition Here Shown at Meeting

About 20 ratepayers were present at the annual meeting of Subdivision No. 6 (Vulcan School District) of the Foothills School Division, held in the I.O.O.F. hall Monday afternoon Nov. 28.

R. C. Munro was elected to act as chairman of the meeting and John W. Donald, secretary of the Division, was named as secretary of the meeting.

Trustee's Report

The meeting opened with a short report given by C. E. Fulton, trustee for Sub-division No. 6. Another van route, to serve the west and south of Vulcan, had been put into operation at the beginning of the school year, said Mr. Fulton, and was proving to be very satisfactory. A General Shop course has been added at the school as part of a circuit embracing Vulcan, Brant and Cayley and has proved very popular, with about 80 students taking the course. It is hoped to add Household Economics to the school courses as soon as a teacher is available.

Plans and proceedings are under way to enlarge the present brick school at Vulcan by the addition of four ground floor classrooms and a science room, assembly room, teachers room, library and lavatories in the basement. (The second set of blueprints for the new addition were available at the meeting and were examined by many of those present.)

Mr. Fulton concluded his report with the observation that the ratepayers in general were well pleased with the operation of the schools since the district was included in the Foothills Division.

Financial Statement

Secretary John W. Donald read the financial statement of the Division for the period Jan. 1 to Oct. 31, 1949, explaining each item where necessary.

Receipts for the 10 month period amounted to \$238,826.96, made up of cash on hand at Jan. 1 of \$9,621.18, provincial grants \$35,113.50, taxes levied by municipalities \$171,062.39, and the balance from miscellaneous receipts such as property sales, tuition fees, rents, repayments of advances to van operators, etc. Estimated receipts for the full year of 1949 are \$279,934.44.

Payments included \$7,256.29 for administration (salaries, rents, office supplies, etc.), \$103,137.22 for instruction (teachers' salaries, instructional supplies, tuition and correspondence courses, etc.), \$33,045.27 for operation (caretakers' salaries and supplies, fuel, painting and redecorating repairs to buildings, insurance, etc.), \$63,942.44 for transportation of pupils and for payments on Vulcan debentures, and \$23,027.63 for capital expenditures such as teacherages and new equipment. This heading showed payments of \$1,242.27 for installing water and sewer in Vulcan schools and \$14,704.44 spent on the new divisional office building at High River. Total payments were \$250,309.72 including \$19,900.87 in advances to van operators for the purchase of new vans.

Trust fund assets show \$29,881.52, held in trust for various school districts and \$10,000.00 in a building and transportation reserve. It was explained that \$20,000 had been transferred from this building reserve this year to finance the building of the new office at High River.

Insurance of \$287,395.00 is carried on buildings and \$49,725 on equipment. At Vulcan, \$40,000 insurance is carried on the brick school, \$15,000 on the stucco school and \$7,000 on the old wooden school.

The statement of assessed valuation and requisitions shows the total assessment of the collecting authorities (Municipal Districts of Vulcan, Blackie, Highwood, Turner Valley, town of Vulcan and villages of Cayley and Blackie) to be \$14,739,213.00 with requisitions and special levies totalling \$230,313.26.

Superintendent's Report

C. M. Laverty, Divisional Superintendent, gave a comprehensive report.

The one-room schools of Highwood and Big Rock had been closed, with the pupils being bused to High River and Okotoks. Vulcan School District No. 1902 came into the division and was made subdivision No. 6, having the equiv-

Big Wind Storm Causes Damage

Saturday night's wind storm played many minor pranks of all kind throughout the district, but at the Earl Erickson and Clayton Clarkson farms it got in some of its more sinister work. At Erickson's a 20 x 50 foot roof was lifted bodily from a machine shed and over an adjoining granary, and set down intact, while the roof of the granary was also torn off and it too, would have escaped damage had it not fallen on a corner post.

Some 25 neighbors of the Ericksons gathered at their farm Monday and held a roof lifting bee. Cutting the huge 20 by 50 foot square in half they were then able, with the use of a hydraulic hay-lift powered by a tractor, to lift it and place it in its original position without mishap.

Lifting a loaded over-head granary 50 feet into the air and scattering wheat over a hundred foot radius, the wind finally dropped the structure atop a nearby tractor, causing considerable damage at the Clarkson farm.

F.W.U.A. To Aid Calgary Y.W.C.A.

On Wednesday, November 23rd, Mrs. Wilson Oldfield entertained the Berrywater Local, F.W.U.A., at their regular meeting. Mrs. Les Richardson was appointed chairman of the meeting. It was decided to make a special money-making effort on behalf of the Calgary YWCA Fund, at some time during the winter. Plans were laid for the Christmas party for members and families of the Berrywater Local, to be held the evening of December 16, at Berrywater school.

A fine report on the work of the Canadian Consumers Association was given by Mrs. Les Richardson, in which she pointed out real progress in relations between manufacturers and consumers, resulting in more satisfactory products for the purchaser. Much merriment was occasioned by a White Elephant sale, held during the lunch hour.

The next meeting will be held on December 14th, at the home of Mrs. Doug Smith. A Christmas gift exchange between the members of the men's and women's organizations will be a feature of the meeting. As the election of officers for the coming year will be held a full attendance is urged.

Penguins are birds, but they never fly. Jaichen, Tibet, at 15,870 feet above sea level, is the highest city in the world.

South America has the three highest waterfalls in the world—the Angel Falls in Venezuela, 3,600 feet high; and the Kukenam and Roraima Falls, both in British Guiana and both 2,000 feet high. The water at Niagara drops only 167 feet.

alent of eight rooms. A shop circuit has been started and van service has been improved. It was found impossible to hire a Home Economics teacher this year.

48 teachers are employed by the Division. Four new teachers were engaged at Vulcan, three at Blackie and three at Ridgeview. Teachers were a little easier to find this year.

Mr. Laverty's report showed that the Division operates 11 one-room schools, 1 two-room school, 1 three-room school, 2 four-room schools, 3 five-room school, and the Vulcan schools with nine teachers.

Costs are still climbing. Mr. Laverty said, and he suggested that if a period of more difficult financing does come the school service should not be allowed to suffer.

Schedules for van operation and teachers' salaries did not change much this year, he said. A minimum rate per day for routes up to 30 miles had been instituted for the vans and teachers' salaries started at a minimum of \$1500, rising by eight experience steps to \$2300 in the elementary schools.

Tom Weidenhamer, chairman of the Division, was present at the meeting and spoke briefly.

Waste Paper Receptacles

After viewing the usual litter of cigarettes packages, candy wrappers and other papers that seem to accumulate regularly in the ditches in the downtown section, a local resident made a suggestion this week that merits consideration.

Everyone is familiar with the waste paper receptacles on city streets and this idea has been found to work very well, not only in the cities, but in count-

ry towns of all sizes. Four metal receptacles, similar to those seen in the city, would likely be sufficient for Vulcan—one on each of the main corners where foot traffic is the heaviest. Possibly advertising space on the side of the receptacles could be sold to help defray the cost over a period of time. The biggest dividend would be our cleaner streets and we think this suggestion should receive the serious consideration of the town council.

False Notions

(From Vegreville Observer)

Let us think carefully before we demand added social security measures. In receiving them, we will be paying for them out of our own pockets, because no government can create these things without taxing the people to pay for them! No government can increase its handouts without assuming more and more power over the taxpayer citizen.

We must beware the slow corruption of our minds by the propagandists who claim we can have a welfare state without its attendant evils. We must guard against swallowing the ideology whole just because we have tasted a few of the responsibilities that are part and parcel of the welfare state.

Conversely, if we sue for and win paternalism, we must be prepared to behave and obey like the irresponsible children we would certainly be.

Alberta Paves 200 Miles This Season

More than 200 miles of hard surfacing have been completed by the works during the current season, according to information received by officials of the Alberta Motor Association.

This is a good sized slice of the \$13,000,000 which the province has spent this year in improving the highways system.

Preliminary operations for hard surfacing several other highways also were completed this year.

A breakdown on the program outlays shows that in central and northern Alberta, \$5,841,000 was expended to build and improve highways, while \$600,000 went to building and repairing bridges, and \$1,830,000 was used for improving district and market roads.

In the area south of Red Deer there was \$3,185,000 spent on highways, \$400,000 on bridges and \$1,256,000 on district and market roads.

Reports on the highway program this year will be among the subjects for discussion at the annual meeting of the A.M.A. in Edmonton, Nov. 19.

With The District Agriculturist Hugh Michael

The following statement which was recently issued by the Alberta Advisory Fertilizer Committee offers a sound comparison for liquid type and solid fertilizers. During the past few week attempts have been made to interest Alberta farmers in the use of liquid fertilizers.

The Alberta Advisory Fertilizer Committee advise that from the standpoint of cost of the fertilizing elements, Phosphorus, nitrogen and potash, the low analysis liquid fertilizers now advertised by some commercial concerns are about 30 times as expensive as standard fertilizers. Farmers trying liquid fertilizer should do so on a small scale only, and in comparison with ordinary granular fertilizers.

The Committee points out that tests to date at the Universities of Alberta and Saskatchewan have not shown any beneficial effect from the application of liquid fertilizers to seed grain of cereals. Ordinary fertilizers used according to recommendations available from District Agriculturists usually give good yield increases.

Comparison of costs and plant nutrients supplied by these two types of fertilizer are set forth in the tables below:

Comparative Costs of Nutrients in Solid and Liquid Fertilizers:

Solid fertilizers:—
Cost per lb. for Nitrogen is \$11.64; Phosphate is \$5.26; Potash is \$5.74.

Ammonium Sulfate @ \$48.90 per ton; Ammonium Phosphate 11-48-0 @ \$76.00 per ton; Muriatic potash 0-0-60 @ \$69.90 per ton.

Liquid fertilizer 5-10-5 contains:—
0.625 lbs. of nitrogen per gallon,
1.25 lbs. of phosphate per gallon,
0.625 lbs. of potash per gallon;
TOTAL 2.5 lbs. of these plant nutrients in one gallon.

1 gallon 5-10-5 costs \$5.00.
Therefore, cost of these nutrients would be \$2.00 per lb.

Comparison of Plant Nutrients Supplied:—

11-48-0 @ 40 lbs. per acre supplies 4.4 lbs. of nitrogen and 19.2 lbs. of phosphate;

5-10-5 liquid fertilizer used as recommended supplies per acre, 0.078 lbs. of nitrogen and 0.156 lbs. of phosphate.

To supply with 5-10-5 liquid fertilizer at \$5.00 per gallon, the phosphate equivalent of 40 lbs. of 11-48-0 would cost \$76.92. (One gallon of 5-10-5 added to 4 gallons of water used to treat 12 bushels of grain) (Seeding rate about 1½ bus. per acre.

TREES FOR FARMS

Every year thousands of trees are distributed to farmers in the prairie provinces by the Dominion Forest Nursery Station at Indian Head, Saskatchewan. These trees are supplied free of charge providing the land on which they are planted has been summer-fallowed by the provincial department of public works the preceding year.

Trees which are available for only the cost of the freight are: caragana, ash, elm, Manitoba Maple, poplar and willow. There is a nominal charge for each of the following evergreens: white spruce, Colorado spruce and Scots pine.

As the supply of all of these trees is somewhat limited farmers who wish trees next spring are advised to make application this fall. Write to the Dominion Forest Nursery Station, Indian Head, Saskatchewan, for further information.

Calgary laid out an underground wiring system for its downtown section 25 years ago and now has 145 miles of conduit with 62 miles of cable installed.

Time Now For Registered Seed

(By H. G. L. Strange)

Harvesting is over. Grain is gathered in and farmers will soon begin to lay their plans for next year's crops. The first consideration must be the kind of crops to sow and the kind of seed to use. More and more farmers are beginning to realize the high value to them of the use each year of some Registered seed, for it is the highest quality seed obtainable.

A few bushels of Registered seed, sown with care on a few acres, will provide larger quantities for sowing the following year on a larger acreage, which will all return to the farmer the original cost of seed over and over again in improved yields and in higher

grades. Because of drought in improved yields and in higher grades. Because of drought in some areas and frost in other. Registered seed is none too plentiful this year. Those farmers, therefore, who are considering the use of Registered seed—and they could not consider the use of anything better—should place their orders for Registered and Certified seed with their Elevator Agents as quickly as possible; all so as to give seed growers time to know the demand and to make preparations for cleaning their seed, for sacking it, and having it sealed by Government Inspectors.

POT BULBS NOW GET SPRING BLOOMS

If you have not potted those Dutch bulbs you bought for flowering in the house, now is the time to do so. If they are left lying about too long, they will dry out and lose quality.

So called Dutch bulbs include hyacinth, tulip, daffodil, or narcissus, and a few of lesser importance. They are grown indoors for spring flowering. The soil is not

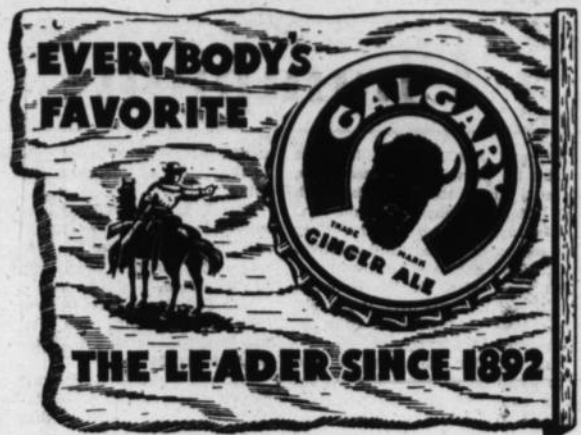

very important but should contain a fair amount of sand. Peat or leaf soil may be added, but barnyard manure is best omitted unless very well pulverized with age.

After potting, water well and keep the bulbs in a cool dark part of the basement. Six to eight weeks is about the average storage time during which the root system develops. During this period keep the soil moist but avoid dryness or saturation.

When the top growth is about an inch long, the pots should be moved to a light position in the basement and should remain there until a slight change in colour from yellow to green occurs.

From then on, the blooms may be forced in a room that is colder than the living room—often the hall or a cool window is a suitable place. The bulbs should remain there until the leaves expand and the flower buds appear. At that time they may be safely moved into a warmer temperature. The full blooms will last longer if kept out of direct sunshine.

Honor Early Settlers

Friends assembled in the Champion Community Hall, Thursday evening, Nov. 24, to honor Mr. and Mrs. Ed Griffin who are leaving Champion to reside in Lethbridge.

The F. Little Orchestra supplied the music for a dance and following luncheon in the banquet room, speakers were heard. They were: O. Sletto and M. Weiss of Champion; W. Nielson of Carmangay and F. Watts of Pincher Creek. J. Buchan, on behalf of their friends, presented the guests of honor with a Lazy-Boy and ottoman. M. Weiss presented Mr. Griffin with a gold pen knife and chair from his fellow members of the Champion Lion's Club.

Mr. and Mrs. Griffin were among the early settlers of this district and farmed here for many years prior to retirement a few years ago when they moved into town.

Mr. Griffin served for several years as councillor and reeve of the Municipal District of Harmony also in the village as councillor and Mayor. He is immediate past president of the Champion Community Hall Board, member of the Champion Lion's Club, the Clevelerville Pioneer Club and Champion Lodge A. F. and A. M.

Mrs. Griffin has been active in member of many organizations and was honored by each during the past week.

Mr. and Mrs. James Anderson were visitors to Lethbridge, guests at the home of the former's mother, Mrs. B. Anderson.

Several children in the district have been absent from school with scarlet fever.

Friday, November 25th, marked the 52nd wedding anniversary of Mr. and Mrs. A. Little, who have resided in Champion for some time, but at present are living in Medicine Hat. Congratulations.

Mrs. B. Anderson has been visiting at the homes of her sons and daughter in law, Mr. and Mrs. Wayne Anderson and Mr. and Mrs. James Anderson.

Several from town attended the Lethbridge-Calgary Junior hockey game in Lethbridge last week.

Considerable damage was done by the high winds of Saturday night to barns, granaries, roofs damaged, and a four engine Lancaster Bomber on the farm of Joe Fath was taken about three quarters of a mile from home, where it came to rest straddling the road, taking three tractors to remove it. Lights were also affected by the wind during the evening.

School Meeting

The Macleod School Sub-division 5 held their annual meeting in the

basement of the community Hall on Friday, Nov. 25, at 2 o'clock. The local trustee, A. J. Maisey, acted as the chairman with A. Grant, secretary-treasurer of the division, as secretary. The minutes of the 1948 annual meeting were read and adopted. Mr. W. Korek, Superintendent, gave a very comprehensive report on the accomplishments during the past year and a very splendid paper (Security through achievement). The Secretary-Treasurer's financial report followed and was explained in detail. Report of the trustee, Mr. Maisey, was the given, followed by a question period.

Several questions were asked and suggestions made regarding the Champion School and Staff.

A resolution was sent by the assembly to Premier Manning, of the Province of Alberta, regarding the government assuming a higher amount of the cost of education, the present share being only approximately 15%.

There were two nominations for sub-division 5 trustee, namely: Mr. A. J. Maisey of Kirkcaldy and Bruce Alder of Champion, the election to be held three days on or before the second Saturday in January, 1950. The exact date will be posted.

The meeting adjourned in harmony at 4:30 p.m.

A FAMILY AFFAIR

There is no service more pleasing to your Treasury Branch than the service to the family... for the family is the backbone of the nation. It's a friendly competent service that encourages thrift in the younger ones... wise investment and counsel to the older ones. And at all times a sincere approach to any family problems in the handling of money.

It is only right that Albertans are more and more using their own Treasury Branch Services — from saving accounts to business loans at a low interest rate.

Family Allowances Question Box

QUESTION—

I cashed a Family Allowance cheque at my store and before I was able to make my deposit in the bank it was accidentally destroyed. Can it be replaced?

STOREKEEPER

ANSWER—

Yes, you should notify the District Treasury Officer in your Provincial Capital giving the name of the original payee, the month of issue and the amount of the cheque and he will advise you of the action necessary to receive a duplicate.

QUESTION—

I have been receiving Family Allowances on behalf of my two children but my husband wishes to discontinue receipt of these allowances for personal and religious reasons. Can I receive the allowance against my husband's wishes?

MRS. K.

ANSWER—

Yes, as the payee of Family Allowances is invariably the mother, if you notify your Family Allowances office in your Capital City that you wish to continue receiving Allowances they will continue to forward them to you until you yourself request their cancellation.

QUESTION—

I have registered my new baby for Family Allowances early in the month. Will I receive the additional money on my regular cheque?

EARLY BIRD

ANSWER—

As Family Allowance cheques are issued early in the month in order that delivery is made simultaneously throughout the Province, you will not likely receive the additional amount until the following month when the double payment may be included for the child depending upon the date of registration.

QUESTION—

Some time ago I misplaced a Family Allowance cheque and only recently discovered it. Is the cheque still good or must I obtain a new one?

ABSENT MINDED

ANSWER—

Whilst payees are requested to cash their cheques promptly, Family Allowance cheques are payable at any time through a chartered bank. The date of its issue does

not invalidate it. If you have any difficulty however in cashing it you should write the Regional Director of Family Allowances in your Provincial Capital who may provide you with a letter of authority to enable you to cash the cheque.

QUESTION—

Recently I took a foster child into our home in order that he might go to school this winter. Are we entitled to draw Family Allowances for him?

FOSTER MOTHER

ANSWER—

Yes, you should immediately advise your Family Allowances Office of the name and birth date of the child and the date he came into your custody and at the same time forward a completed Family Allowances registration form, the blank forms being obtainable at all Post Offices.

QUESTION—

My wife recently died leaving me with our young children. The Family Allowance cheque arrived after her death and was payable to her. May I cash this cheque or what should I do about it?

FATHER

ANSWER—

You should return the cheque to the Family Allowances Office and advise them of the date of your wife's death and the fact that you are looking after the children; the cheque will then be cancelled and a new cheque issued to you in your own name.

TRIES POST LETTER, GETS FIRE BRIGADE

New to city contraptions, Fred Arrowsmith, formerly of Fox Valley, gave firemen an unnecessary run at 11:20 this morning when he tried to mail a letter in an alarm box at the corner of Third St. and Second Ave. N.W. Mr. Arrowsmith had just moved to the city and wrote a letter home to tell the folks how much he likes Medicine Hat. He tried to insert the letter in the fire alarm box and not finding a slot pulled the bell lever down. He was overwhelmed a few seconds later by the speed with which some men in blue and two trucks arrived to pick up his misadventure.—Medicine Hat News.

Salesman For Better Farming

In most countries and municipalities across Canada there is a man doing one of the most important jobs in the country. He is the local agricultural representative—called "ag. rep." by the majority of farmers.

The ag. rep. is the farmers' professional counsellor. He advises on the suitability of soils, what crops should be grown, identifies plant and animal diseases and works out pest control programs. He answers countless questions on farm economic, helps organize farm clubs, breeders' associations and lectures extensively to rural groups on the newest methods of modern farm management.

The field of an agricultural representative's activities is so vast, his entire life is dedicated to his work. During his travels about his territory he has acquired an intimate knowledge of the countryside, calls every farmer by his first name and usually knows

more about the farmer's farm than the farmer himself. His work starts early in the morning and continues well into the night.

A graduate from an agricultural college, he is expected to possess a vast fund of knowledge on practically every phase of agriculture. Yet, the remuneration he receives for his work is quite modest.

Farmers are indeed privileged to have the services of such an advisor—without a penny of cost to themselves. Those who are interested in bettering conditions could at least offer their whole-hearted co-operation to him in the various farm activities he inspires.

SUCCESS—

This is success:

- To be able to carry money without spending it;
- To be able to bear an injustice without retaliating;
- To be able to do one's duty even when one is not watched;
- To be able to accept criticism without letting it whip you.

Tuberculosis is a communicable disease and is spread from the sick to the well.

Brief Items of Local Interest

Mrs. Caryl Jordan is another of the town residents with an experience that leads to the thought that Vulcan, temporarily at least, is in the "banana belt." On Nov. 25 Mrs. Jordan picked a good handful of fresh, green swiss chard, all new growth. With pansies and dandelions reported last week, all we need now are some strawberries fresh from a Vulcan garden.

Flying Officer and Mrs. Arnold Gerding of Bradon, Man., are visiting with relatives in the town and district.

Friends will be pleased to hear that little Diane Smith, daughter of Mr. and Mrs. Ross Smith, is making a good recovery after a recent major operation in the Holy Cross hospital, Calgary.

Alex Smith of Ensign was a business visitor in town on Monday.

The pool tournament held at Donly's Bolodrome recently was won by Herb Marsh. First prize was a pool stick made to the winner's specifications and second prize, a turkey, was won by Don Campbell. There were 32 entries in the tournament, which was the first of a series to be held this winter.

Mrs. Jean Munro of Calgary is visiting for a few days this week at the home of her son and daughter-in-law, Mr. and Mrs. R. C. R. Munro.

Mr. E. J. Loxton, accompanied by Mr. and Mrs. Chas. Ottewill, motored to Calgary on Sunday. Mrs. Loxton, who had spent several days visiting relatives there, returned home with them.

Mrs. E. McMillan was the lucky winner of the radio offered as the grand prize at the recent Milo carnival.

A dance will be held at the Red Cross school on Friday evening, Dec. 2, with the proceeds to be used for buying Christmas treats.

K. Roy McLean, Optometrist of Calgary, will be in Vulcan at the King Drug Store on Monday, Dec. 12, from 11 a.m. to 5:30 p.m. Consult Mr. McLean at his Calgary office, 1014 Greyhound Building, daily except Monday.
